How do I sign up for a Canvas account as a parent?

Parents can sign up as an observer in Canvas. Observers can link their Canvas account to their student's account so they can see assignment dues dates, announcements, and other course content. Observers can view the course content but cannot participate in the course.
This document is for parents who do not have a Canvas account and want to observe their students in their courses. If you already have an account from your student's institution, log in to Canvas using the credentials given to you.

Notes:

- To observe a student, you must have a pairing code (see "generating a pairing code" for more information).
- Once you have an account, you may be able to view student information through the Canvas Parent app. If you already have an account from your student's institution as an observer, you can always view student information through the Canvas Parent app.
